EXPERIENCE

Object Partners, Inc.
User Experience Consultant
July 2020 - Present

• Enable better interaction between clients and their users to help organizations realize their business goals and connect with their customers.

• Bridge the divide between stakeholder expectations and user needs to deliver intuitive digital experiences that resonate with people.

• Help clients realize and manifest the immense Return on Investment that good design brings to their business.

Tigerpaw
Product Designer + UI/UX Front-End Developer
June 2019 - July 2020

• Responsible for creating and shaping the user experience through unique and captivating user interfaces, visuals, and journeys.

• Lead, coordinate, and conduct user research and translate findings into impactful user experience interfaces.

• Create initial concepts and designs, wireframes, and high-fidelity mockups to communicate vision with senior leadership and stakeholder groups.

• Collaborate with users and stakeholders throughout the product life-cycle to deliver applications and experiences that are tailored to and benefit the end-user.

Original Zen
Founder + Creative Director
March 2016 - Present

• Work with a diverse range of clients to produce digital and print projects that improve their business.

• Create websites that are built on various platforms, including WordPress, Vue, and React, for multiple clients.

• Help clients craft and develop their brand and deliver their message through graphic design work.

EDUCATION

Master of Science
Web Design and Development
University of Denver - Denver, CO
August 2017 - June 2019

• Emphasis on user experience and user interface research, design, and testing.

• Design, develop, and deploy websites and web-based applications using best practices in information architecture, user experience, and user accessibility.

• Leverage the convergence of design and development to create unique experiences that satisfy client and business requirements.

Bachelor of Science
Aviation Technology
Metropolitan State College of Denver - Denver, CO
Janurary 2003 - December 2008

• Learned to work in demanding, high-pressure aerospace environments while remaining detail oriented and focused on providing a high-level of performance.

• Earned multiple FAA flight and instructor ratings in both single and multi-engine aircraft.
